## NOTICE OF PROPOSED AWARD (NOPA) (Revised)

Advancing Cutting-Edge Technologies and Strategies to Reduce Energy Use and Costs in the Industrial, Agriculture and Water Sectors: Phase 2

GFO-16-305

February 28 March 9, 2017

On December 20, 2016 the California Energy Commission (Energy Commission) released Phase 2 of a competitive solicitation to fund applied research and development projects that would increase demand response in the industrial, agriculture and water sectors. Up to \$3 million in Electric Program Investment Charge (EPIC) Program funding is available to fund applications in the following project group:

Group 2: Develop and Validation of Demand Response Technologies and Strategies

The Energy Commission received seven proposals for Group 2 by the due date of January 18, 2017. Each proposal was screened, reviewed, evaluated and scored using the criteria in the solicitation. Six proposals passed the Stage One Application Screening.

The attached <u>revised</u> "Notice of Proposed Awards" identifies each applicant selected and recommended for funding by Energy Commission staff and includes the recommended funding amount and score. The total amount recommended for Group 2 is \$2,999,883. <u>This revision</u> corrects the title of one project.

Funding of the proposed project resulting from this solicitation is contingent upon the approval of these projects at a publicly noticed Energy Commission Business Meeting and execution of a grant agreement. If the Energy Commission is unable to timely negotiate and execute a funding agreement with the Applicant, the Energy Commission, at its sole discretion, reserves the right to cancel or otherwise modify the pending award, and award the funds to another applicant.

In addition, the Energy Commission reserves the right to: 1) increase or decrease the available funding and the group minimum/maximum award amounts described in the solicitation and 2) negotiate with successful applicants to modify the project scope, schedule, and/or level of funding.

This notice is being mailed to all parties who submitted an application to this solicitation and is also posted on the Energy Commission's website at: <a href="https://www.energy.ca.gov/contracts/">www.energy.ca.gov/contracts/</a>.

For information, please contact Crystal Presley-Willis at (916) 654-5067 or <u>Crystal Presley-Willis@energy.ca.gov</u>

**Crystal Presley-Willis**Commission Agreement Officer

Advancing Cutting-Edge Technologies and Strategies to Reduce Energy Use and Costs in the Industrial, Agriculture and Water Sectors: Phase 2

Notice of Proposed Awards (Revised)

February 28, 2017 March 9, 2017

Group 2: Develop and Validation of Demand Response Technologies and Strategies							
Rank Number	Project Applicant	Title	Energy Commission Funds Requested	Energy Commission Funds Recommended	Match Funds	Score	Award Status
Proposed Awards							
1	UC Davis	Advancing Demand Response in the Water Sector	\$2,999,883	\$2,999,883	\$90,865	86.73	Awardee
Total Passed but Not Funded		\$2,999,883	\$2,999,883	\$90,865			
Passed but	Not Fundea	Modular Electrical Energy Storage Using	T :		I	T	
2	UC Davis	Second Life Battery Capable of Peak Shifting and Demand Response for Industrial	\$1,993,856	\$0	\$181,173	79.25	Finalist
	OC Davis	Equipment Self-Powered Environmentally Sound Energy	\$1,993,630	\$0	\$101,173	79.25	rinalist
		Sen-Powered Environmentary Sound Energy- Efficient System (SPESEES) for Industrial Applications Remote Pump Management (RPM)					
3	Lincus, Inc.	Program	\$1,263,893	\$0	\$0	70.54	Finalist
Total	1		\$3,257,749	\$0	\$181,173		
<b>Did Not Pas</b>	ss						
	Rein Tech, Inc.	Water Use Monitoring, Leak Detection and Water Quality Monitoring	\$1,000,000	\$0	\$200,000		Did Not Pass
	UC Riverside	A New Paradigm for Energy- and Water- Efficient Agriculture in California	\$2,636,873	\$0	\$187,441		Did Not Pass
	Enova Water, LLC	Integration of Energy-Efficient Controls and Artificial Intelligence Based Strategies for Peak Demand Management and Load Shifting	\$1.518.559	\$0	\$307,100		Did Not Pass
Total	TENOVA TVAION, EEO	Criticing	\$5,155,432		\$694,541		Bid Hot i doo
Disqualified							
,		DRIP - Demand Response Irrigation Platform: Development, Validation and Demonstration of Smart Irrigation Optimization, and Pump and Valve Management					
	Siemens Corp.		\$994,009	\$0	\$400,078		Disqualified
Total			\$994,009	\$0	\$400,078		
Grand Total			\$12,407,073	\$2,999,883	\$1,366,657
